Connect to ABAP Systems

Send feedback

For applications that do not need to run on Cloud Foundry, establish a connection to an ABAP back-end system by creating one destination for multi-usage.

Prerequisites

- You must have an Administrator or Developer role to modify destinations.
- Make sure you are using OData Version 2.0 only.
- If your remote system resides behind a firewall (proxy type OnPremise), the following prerequisites must be met:
 - You have set up the Cloud Connector and defined a virtual host mapping for the system.

See Cloud Connector

(https://help.sap.com/viewer/cca91383641e40ffbe03bdc78f00f681/Cloud/en-US/e6c7616abb5710148cfcf3e75d96d596.html).

- In the **Access Control** tab page of SAP Cloud Platform connector, you have granted access to the URL paths (Resources) for the required usages (for **Access Policy**, select option **Path and all sub-paths**):

- /sap/opu/odata

for the OData functionality of Gateway

- /sap/bc/ui5_ui5

for executing SAPUI5 applications from the SAPUI5 ABAP Repository

- /sap/bc/adt

- /sap/bc/ui2/app_index/

Getting Started

(/viewer/825270ffffe74d9f988a0f0066aUS/995af3aa09074ceca20e59011ef7852

Open SAP Web IDE

(/viewer/825270ffffe74d9f988a0f0066aUS/51321a804b1a4935b0ab7255447f5fi

Migrate your Projects

> (/viewer/825270ffffe74d9f988a0f0066aUS/87126db5ad5b4b699f72d04b3def84

for extensibility/import scenarios and developing or deploying to
SAPUI5 ABAP Repository

- /sap/bc/bsp
- /sap/bc/ui2

for working with fact sheets

- /sap/hba

for SAP HANA XS OData services

See Configuring Access Control (HTTP)
(<https://help.hana.ondemand.com/help/frameset.htm?e7d4927dbb571014af7ef6ebd6cc3511.html>).

Context

For every system that you want to connect to, you create one multi-usage destination.
You enter the required usages as a value for the property **WebIDEUsage**.

Procedure

1. Log on with a user (who is an account member) to the SAP Cloud Platform cockpit in your region. See Regions and Hosts
(<https://help.sap.com/viewer/65de2977205c403bbc107264b8eccf4b/Cloud/en-US/350356d1dc314d3199dca15bd2ab9b0e.html>) for a list of all available regions.

i

Note

You can access the SAP Cloud Platform cockpit from SAP Web IDE by selecting **Tools > SAP Cloud Platform Cockpit**.

2. Open the **Destinations** editor.
3. Choose **New Destination**.
